

The Water Tower

May 2006

Dear Resident,

The Amenities Committee is very concerned at the increased cost of maintaining the Water Tower.

Since 1990 £14,264 has been spent on the upkeep. This means approximately £1000 per annum is needed for the next 35 years. We are actively seeking a long term way of supporting the Tower. This will have to be an ongoing process with a positive plan for the future. The alternative is to ask Moray Council to release us from the remainder of the lease.

If you wish to support maintaining the Tower, or have any proposals concerning this very important subject, please indicate below.
